

## Notice of Motion

**Submitted By:** Councillor Ryan

**Submission Date:** June 13, 2024

**Subject Matter:** Green Community Standards

**Consideration Date:** June 27, 2024

**Whereas**, the Town of Erin, is growing and expected to double in population by 2030, effectively changing over from a rural lifestyle to a more urban citizenship;

**And whereas**, it is important to establish measures to support and maintain sustainable, environmentally conscious development;

**And whereas**, Erin's unique geographic location is on the shoulder of the GTA, within the Greenbelt, in the headwaters of the credit river water system, and has a significant geographical green position;

**And whereas**, it is important that the Town supports, sustainable development solutions that address and balance needs related to climate change, quality of life, growth, infrastructure and wastewater, and expanded economic development;

**Therefore, be it resolved that** the Town of Erin commits to the creation of Green Community Standards that include measures for the creation of thoughtful and innovative developments using sustainable and resilient design standards that will support community beautification, marketing, branding, attraction of green technology, and businesses to build a vital local economy.
