A NEW ECONOMIC DEVELOPMENT STRATEGY FOR THE TOWN OF ERIN

The Town of Erin will experience significant growth and change in the coming years. As we look to the future, it is necessary to establish a new Economic Development Strategy that reflects the current needs and aspirations of our community. With our proximity to the Greater Toronto Area (GTA) and a growing population, the Town of Erin is at a pivotal point where a refreshed strategy will help harness new opportunities and address emerging challenges.

WHY NOW?

The Town of Erin's previous economic development efforts have laid a strong foundation for growth, focusing on attracting businesses and supporting local enterprises. However, the landscape is evolving rapidly. Our community is preparing for a significant increase in population, which necessitates a strategy that not only accommodates this growth but also leverages it to enhance our local economy.

With a projected rise in population, the Town of Erin must prepare to meet the needs of both new and existing residents. This includes creating job opportunities, enhancing infrastructure, and ensuring a high quality of life. Our community values its heritage and charm while embracing innovation. The new strategy balances these aspects, ensuring that growth is sustainable and aligned with the Town of Erin's unique character. As a Town supportive of investment and open to new ideas, Erin must proactively attract and retain businesses that align with our community's values and contribute to our economic resilience.

THE NEW STRATEGY

The Town of Erin's new Economic Development Strategic Plan stems from the collective vision that was developed following an analysis of the Town's economy and demographics, and several stakeholder engagement sessions, including a strategic planning workshop with Council and the Erin Economic Development Committee, and a Focus Group session.

This strategy will focus on several key areas, beginning with investment attraction, which will involve proactively seeking and encouraging new businesses to establish themselves in Erin. Infrastructure improvements will enhance and expand the infrastructure to support the growing population and business community, ensuring efficient development. Business retention and expansion efforts will support existing businesses in their growth, ensuring they remain integral parts of the community.

Finally, fostering a vibrant community will involve creating a dynamic, inclusive, and engaged environment where residents enjoy a high quality of life and actively participate in the Town's development. As part of the Town's commitment to Environmental Stewardship, the Town of Erin will prioritize green initiatives in all economic development efforts, promoting sustainable growth, energy efficiency, and environmental responsibility. This focus aligns with our vision for a greener, more sustainable future for both residents and businesses.

ECONOMIC SNAPSHOT

POPULATION

The Town of Erin has shown steady population growth, increasing from 10,770 in 2011 to 11,981 in 2021, and our population is estimated to be 26,000 by mid-2030. The majority of the population falls within the 15-64 age range, with a median age of 46.8 years, indicating a mature community with a significant working-age population. Regarding education, twenty-three percent of residents have a university degree, and another twenty-three percent hold a college diploma, showcasing a well-educated community. Residents primarily hold post-secondary degrees or diplomas in the fields of 'Business, Management and Public Administration,' 'Social and Behavioural Sciences and Law' and 'Architecture, Engineering, and related trades.'

WORKFORCE AND LABOUR FORCE

The Town of Erin's workforce is primarily concentrated in a few key occupations and industries. The top occupations include 'Trades, Transport, and Equipment Operators,' followed closely by 'Sales and Service,' 'Business, Finance, and Administration,' 'Education, Law, Community and Government Services, and 'Natural and Applied Sciences.' This occupational distribution suggests a community heavily involved in skilled trades and services, with a significant portion also engaged in administrative and scientific roles.

The Town of Erin's workforce exhibits higher labour force participation rates than Wellington County and the Province of Ontario overall. Erin's participation rate stands at 69.4 percent, with 73.3 percent for males and 65.3 percent for females. This suggests that Erin benefits from a relatively engaged workforce, particularly among women, who participate at higher rates than in both Wellington County and Ontario.

The employment rate in the Town of Erin stands at 63.6 percent (68.1 percent for males and 59.1 percent for females), again outperforming Wellington County (61 percent overall) and Ontario (55.1 percent overall). While unemployment in Erin remains lower than the provincial average, it still presents a gender gap: Erin's unemployment rate is 8.2 percent, with 7.1 percent for males and 9.6 percent for females. This gender disparity in both employment and unemployment rates suggests opportunities to further support female workforce engagement and reduce unemployment within the town.
